Career Objective

Frontend-focused Software Engineer with experience building and deploying responsive web applications using **React.js, JavaScript, HTML5, and CSS3**. Hands-on experience developing reusable components, client-side routing, authentication flows, state management, product discovery, wishlist, cart, and checkout interfaces. Strong debugging and problem-solving background from supporting enterprise production systems at Capgemini.

Skills

Frontend
React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design

React
React Router, Context API, Component-Based Architecture, State Management

Web
REST API Fundamentals, LocalStorage, Form Validation, Responsive UI, Semantic HTML

Styling
Flexbox, CSS Grid, Media Queries, Swiper

Tools
Git, GitHub, Vite, VS Code, Chrome DevTools, Vercel, Postman

Programming
Java, SQL

Concepts
Debugging, Accessibility Fundamentals, Web Performance, Clean Code, Agile Development

Projects

CorpCart — Corporate Merchandise E-Commerce Platform ,
React.js | JavaScript | React Router | Context API | CSS3 | Vite | Swiper GitHub: https://github.com/soumya738/CorpCart
- Built and deployed a responsive e-commerce frontend supporting **product browsing, product details, search/filtering, wishlist, cart, checkout, and authentication flows**.
- Developed reusable React components and managed **authentication, cart, and wishlist state** using Context API and persistent client-side storage.
- Implemented React Router for public and protected application flows, including login-controlled checkout navigation.
- Designed responsive product grids, navigation, image carousels, forms, and mobile-friendly layouts using CSS, Flexbox, Grid, and Swiper.

Starbucks Responsive UI Clone ,
HTML5 | CSS3 | JavaScript | Responsive Design, GitHub: https://github.com/soumya738/Starbucksclone
- Recreated a responsive Starbucks-inspired web experience with structured navigation, promotional sections, CTA components, and adaptive layouts.
- Applied semantic HTML, reusable CSS patterns, Flexbox/Grid, media queries, and responsive image handling for consistent rendering across screen sizes.

Professional Experience

Software Engineer, *Capgemini* 2024-12 – 2026-09 | Bengaluru
- Troubleshoot production issues by analyzing application logs, background processes, system health, and database behavior to identify root causes and restore services.
- Support enterprise application releases, upgrades, patching, configuration changes, and production deployments across development, QA, and production environments.
- Collaborate with cross-functional teams to investigate incidents, validate fixes, document resolutions, and maintain reliable business-critical systems.
- Perform structured debugging and problem isolation across application, database, authentication, and infrastructure layers while working within operational SLAs.

Education

B.Tech, Information Technology, *Sastra University* 2020 – 2024
CGPA : 8.7
