HTML, CSS, JavaScript, React JS, React Router, Context API, Bootstrap, Responsive Web Design, Flexbox, CSS Grid

Tools & Practices
Git, GitHub, Vite, VS Code, Vercel, Figma, Debugging, Root-Cause Analysis, SDLC, Agile, Release Support

Programming
Java, JavaScript (ES6+),SQL

AI Integration
Gemini API, AI-Assisted Development

Professional Experience

Technical Trainee, *BNP PARIBAS SECURITY SERVICES* 01/2024 – 06/2024
CHENNAI, INDIA

- Developed dashboards and queries using Power BI and PL/SQL.
- Gained exposure to financial datasets and corporate project workflows.
- Demonstrated effective communication and collaboration in a fast-paced professional setting.

SAP Basis Consultant, *Capgemini* 12/2024 – 09/2026
Bengaluru

- Diagnosed business-critical SAP incidents using application logs, background-job checks, and systematic root-cause analysis across application, database, and infrastructure layers.
- Supported transport deployments, system upgrades, patching, and refreshes across development, QA, and production environments following change-management procedures.
- Collaborated with cross-functional teams to validate fixes, document technical resolutions, and communicate incident and release status.

Projects

CorpCart — Corporate Merchandise E-Commerce Platform ,
React.js | JavaScript | React Router | Context API | CSS3 | Vite | Swiper GitHub: https://github.com/soumya738/CorpCart

- Developed and deployed a responsive shopping interface with product discovery, filtering, wishlist, cart, and checkout navigation using reusable React components.
- Implemented route-based flows and shared cart/wishlist state using React Context API and persistent browser storage.

RepoMind AI — GitHub Repository Analysis (In Development), *Node.js | Express.js | PostgreSQL | REST APIs | Git*

- Built REST API functionality to import GitHub repositories, clone source code, scan supported files, and return repository metadata and file counts.
- Designed database records for repository processing status; debugged request parsing, database connectivity, and Git integration failures.

NextShow — Movie & Event Booking Platform , *Figma | JavaScript | HTML5 | CSS3 | Bootstrap*

- Developed and deployed a responsive movie and event discovery platform with movie listings, events, offers, search, and interactive UI elements.
- Designed **movie details, ticket booking, sign-in, and sign-up user flows in Figma**, maintaining consistent visual hierarchy and reusable UI patterns. (Figma Link : Click here to check prototype)

- Created interactive Figma prototypes to model navigation and booking experiences before implementation.
- Applied responsive design and UX principles to provide consistent experiences across different screen sizes.

ResumeIQ | Resume & Job Description Analyzer , *JavaScript, Gemini API*
Built and deployed a resume-to-job-description analysis tool that reports an ATS-style match score, identifies missing keywords, and suggests improvements.
- Integrated the Gemini API to provide AI-assisted recommendations based on resume and job description content.

Education

B.Tech, Information Technology, *Sastra University* 2020 – 2024
CGPA : 8.7

HSC, *Sri Chaitanya Mahila Junior College* 2018 – 2020
Percentage : 96.1% Vijayawada, Andhra Pradesh

SSC, *Sri Chaitanya High School* 2017 – 2018
GPA : 9.8 Kadapa, Andhra Pradesh
